M. D. SAMPSON, J. G. Mohler, Chairman. Secretary.

WE have it from the best of authority that the alleged "contract" be-St John nor had any communica- Congress. tion with him since he went out of office as Governor. There is, however, no reason why Gov. St. John should not feel kindly towards the Colonel, as the latter had heartily and earnestly avocated St. John's election three times; and although the Colonel had opposed his nomination, both in 1880 and in 1882, his opposition was not based on personal hostility but upon party reasons.

We have good grounds for believing that Col. Martin's sole political ambition is to be Governor of the Great State of Kansas. But he does not wish this prize at the expense of party division and disunion. If he is satisfied that he can obtain the nominstion and be supported with heartiness by all factions of the Republican party, he will surely be a candidate. The "signs of the times" point emphatically to a hearty, unanimous and enthusiastic endorsement of his candidacy by the Republican State Convention.

The National Republican Commithigh honor of Secretary of the Com-mittee, in just acknowledgment of his ability and eminent services for the Republican party. The Republitee conferred upon Col. Martin the cans of Kansas not only heartly endorse that act, but most probably "will go one better." We firmly believe that the State Convention will nominate, without a dissenting voice, the distinguished Republican, the gallant soldier-the man with a stainless private and political record, Col. John A. Martin, of Atchison.

Wn notice in some of our exchanges that the name of Prof. William Bishop, of this city, is favorably mentioned for the office of State Superintendent of Public Instruction. He is evidently the choice of many of the leading educators of the State. It is not necessary to apeak of his qualifications here, where he is so well known. Indeed he has a splendid reputation throughout the State as a man of fine abilities, distinguished scholarship, and good executive capacity. With his long experience in every department of school work he is admirably fitted for the administration of the educational system of the state. His nomination and election to this high position would certainly be a grace-ful recognition of his talents, culture, and eminent services in the cause of admention. Have a stannel Republic. education. He is a staunch Republican, and one whose character is above repreach, and who would be an honor to the State in any position.

In consideration of the great miarm prevailing over the foot and mouth ase among the cattle, the Governor was induced to call a special session of the Legislature, which assembled last Tuesday. A VALUABLE pamphlet-"prepared by the State Board of Agriculture, and published as a guide to those who are seeking homes in the West"comes to our address, and we find it to be the best advertisement of Kansas' resources we have yet seen. Healdes containing much information concerning the agriculture, hortfeulture, live stock, lands, schools, churches, manufactures, &c., of Kansas, it is illustrated with a series of good cuts. Among them are: "View in Rice county," "Sugar Mills at Sterling." "The Great Arkansas Valley," "Wellington's Sheep ranches in Elisworth County," and "How the Mennonites lay off their Land!" I have the Mennonites but they draw the life out with blue, but they draw the life out with blue. lay off their Land." A good map of Kansas is also found in the book.

NUMEROUS post-mortem testimo-nials come to light since the death of James Buchanan to the effect that he was an honest and pure-minded patriot and statesman. He must have been greatly wronged by public opin-ion during the war, as we who had just commenced to watch public matters then were made to believe that he would have turned over the Government machinery to the Southern Confederacy, if he had had half a Colds, Consumption and Bronchitis chance. But when such men as now write of him tell us that his errors were those of the head and not of the beart, it is full time many bad things which were said of him should be taken back with profuse apologies,

IT seems that Henri Waterson has appeared before the Committee with an argument in support of the news-The basis of representation in said convention shall be one delegate from each voting precinct in the county, and one additional delegate for every twenty votes, not regarding fractional party thereof, cast for Joseph Sagent, Esq., Republican candidate for county cierk, at the November election, 1883, under which apportionment each precinct will be entitled to representation as follows: what is known as the "Country ox.
